- Pass mark 70%

*Candidates from countries where English is not an official language will be awarded an extra 30 minutes. See Blue Prism Portal for more details.

Scope

- Designing for unattended automation
- Sub-processes and wrapper objects
- Recoverability and scalability
- Object design
- Case management
- Workload management
- Data management
- Web services

Preparation

We would expect a candidate to have solid practical experience of designing multiple Blue Prism process solutions. To prepare for the exam it is advised that the candidate read and fully understand the following guides from the Blue Prism Portal under the Documents section:

- Blue Prism - Solution Design Overview
- Work Queues Guide
- Blue Prism User Guide - Web Services or v6 User Guide - Web Services

Scoring and Timing

The **Designing Blue Prism Process Solutions (ASD01)** exam provides a series of detailed scenarios as well as short questions. Questions are multiple response with each correct response awarded a point. The first 5 questions are long scenario based question and awarded double points. These first five questions represent 40% of the total marks and should take you around 25 minutes to complete.

Entry Requirements and Registration

To register for the **Designing Blue Prism Process Solutions (ASD01)** exam you will need to be in possession of Blue Prism Portal account and have successfully passed the Certified Developer (AD01) exam. A minimum of seven days must elapse between a failed exam and an exam resit.
