

Blue Prism Associate Developer Certification Overview

Document Version 1.0

Blue Prism Associate Developer (ASDEV01)

Blue Prism appreciates the importance of having a high-quality certification program to maintain the standards required for successful enterprise RPA delivery.

The Blue Prism Associate Developer (ASDEV01) exam focuses on testing the essential skills and knowledge required to configure a simple Blue Prism process automation solution.

Exam Details

- 50 questions randomly selected from a pool (single choice, multiple choice, drag & drop, fill in the blank)
- All questions of equal weight
- 50 minute exam*
- Pass mark 70%

*Candidates from countries where English is not an official language may be awarded an extra 30 minutes. Please see the Blue Prism Portal [FAQ](#) page for further details.

Scope

- Detailed understanding of Blue Prism native functions and their correct application
- Datatypes: different datatypes and casting data of one type to another type using a calculation stage
- Debugging: stepping in, stepping out, to breakpoints, what happens when exceptions are thrown when stepping over or stepping out of subpages
- Process flow through decision, choice stages and sub-pages
- Correct use of action retrying from a process as per Blue Prism standard template. (See portal template and process creation tutorial)
- Knowledge of Blue Prism process templates and their structure and flow
- Correct use of attributes to ensure consistent identification of elements. Which attributes are best for helping make element attributes unique? And which are not? Causes of previously spied elements suddenly not being found. Use of dynamic attributes, correct setting in application modeller and how to set attribute parameters from Blue Prism stages. Use of regular expressions to identify elements.

Preparation

To prepare for the Associate Developer Certification exam you should successfully complete the Blue Prism Foundation Training and associated consolidation exercise. It is essential that you review and understand the following learning objects which can be found on the Blue Prism Learning Management System, within the 'Blue Prism Associate Developer Certification' Learning Plan:

- Basic Awareness
- Blue Prism Foundation Training
- Blue Prism Process Templates
- Blue Prism Credentials and Credential Manager
- Advanced Data Items
- Advanced Attribute Matching

When taking the exam please bear in mind that any spelling mistakes or syntax errors within the questions are deliberate.

Entry Requirements and Registration Procedure

To register for the Associate Developer Exam (ASDEV01) you will need to be in possession of Blue Prism Portal account. A minimum of one month must elapse between a failed exam and an exam resit.

To register for an exam please go to <https://home.pearsonvue.com/blueprism>

For details of exam fees and accommodations please visit the [Certification Policies](#) page on the Blue Prism Portal, and review the BLUE PRISM CERTIFICATION - SITTING AN EXAM document
