

Blue Prism Installation Engineer Certification Overview

Document Version 1.0

Blue Prism Installation Engineer

Blue Prism appreciates the importance of having a high-quality certification program to maintain the standards required for successful enterprise RPA delivery.

To become a certified Installation Engineer, you must pass either of the Installing and Configuring a Blue Prism Environment Exams. These exams are version specific and available for both Blue Prism v5.0(AIE01) and v6.0(AIE02). Certification is awarded for passing any one of these exams and is valid for life. The exam tests a candidates knowledge and understanding of how all Blue Prism architectural components should be deployed and configured for a successful implementation

Exam Details

- 45 multiple choice questions randomly selected from a pool
- All questions of equal weight
- 60 minute exam*
- Pass mark 70%

*Candidates from countries where English is not an official language may be awarded an extra 30 minutes. Please see the Blue Prism Portal [FAQ](#) page for further details.

Scope

The exam is presented in the following sections:

- General Component Knowledge
- Configuring Application Servers
- Configuring Runtime Resources
- Configuring Interactive Clients
- Configuring a Blue Prism Database
- Configuring Login Agent
