

## Blue Prism Technical Architect Certification Overview

Document Version 1.0

# Blue Prism Technical Architect

Blue Prism appreciates the importance of having a high-quality certification program to maintain the standards required for successful enterprise RPA delivery.

To become a certified Technical Architect you must pass either of the Designing a Blue Prism Environment exams. These exams are version specific and available for both Blue Prism v5.0 (ATA01) and v6.0 (ATA02). Accreditation is awarded for passing any one of these exams and is valid for life. These exams test the candidate's understanding of architectural components, support requirements and design considerations that underpin a scalable and secure Blue Prism enterprise architecture.

## Exam Details

- 45 multiple choice questions randomly selected from a pool
- All questions of equal weight
- 75 minute exam\*
- Pass mark ATA01 = 80% / ATA02 = 70%

\*Candidates from countries where English is not an official language may be awarded an extra 30 minutes. Please see the Blue Prism Portal [FAQ](#) page for further details.

## Scope

- Component architecture and implementation options
- Designing a Blue Prism architecture in a virtualized environment
- Managing user access via Active Directory integration
- Secure storage and management of access credentials
- Component remote access and considerations regarding appropriate tools.
- Infrastructure component monitoring
- Database provisioning and maintenance
- Windows and application authentication
- Securing network connectivity across components

## Preparation

Candidates must have experience in designing Blue Prism environments from at least v5.0.23 and have some previous experience and knowledge of Active Directory, virtualization and network design. To prepare for the exam it is advised that the candidate read and fully understand the following product documentation available on the Blue Prism Portal. Each document is available as a v5 or v6 version. Please read the version appropriate to your exam.

- Blue Prism Infrastructure Reference Guide Enterprise Edition\*
- Blue Prism Virtualization Guide Enterprise Edition\*
- Data sheets:
  - Provisioning a Blue Prism Database Server
  - Maintaining a Blue Prism Database Server
  - Secure Windows Authentication
  - Credential Manager
  - Securing Network Connectivity
  - Active Directory Integration
  - Remote Access Tools
- User Guide - Load Balancing
- User Guide - Login Agent

\* NDA required. Please see your Blue Prism Account Manager

## Entry Requirements and Registration Procedure

To register for either exam you will need to be in possession of Blue Prism Portal account. A minimum of one month must elapse between a failed exam and an exam resit.

To register for an exam, please visit [Pearson Vue](#) directly.

For details of exam fees and accommodations please visit the [Certification Policies](#) page on the Blue Prism Portal, and review the BLUE PRISM CERTIFICATION - SITTING AN EXAM document
